

1.) Localization testing

Made with Avira VPN:

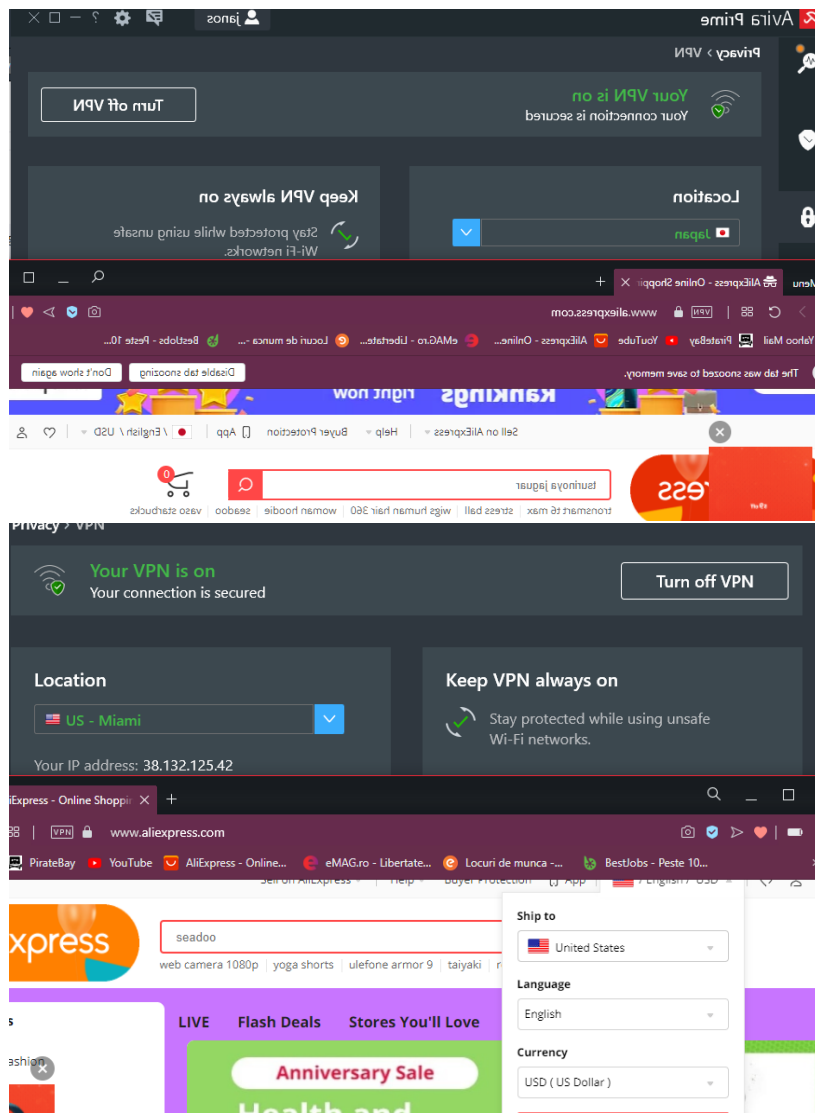

-Italy : currency is USD, location Italy, language is set to English, although it should be Italian, and currency Euro.

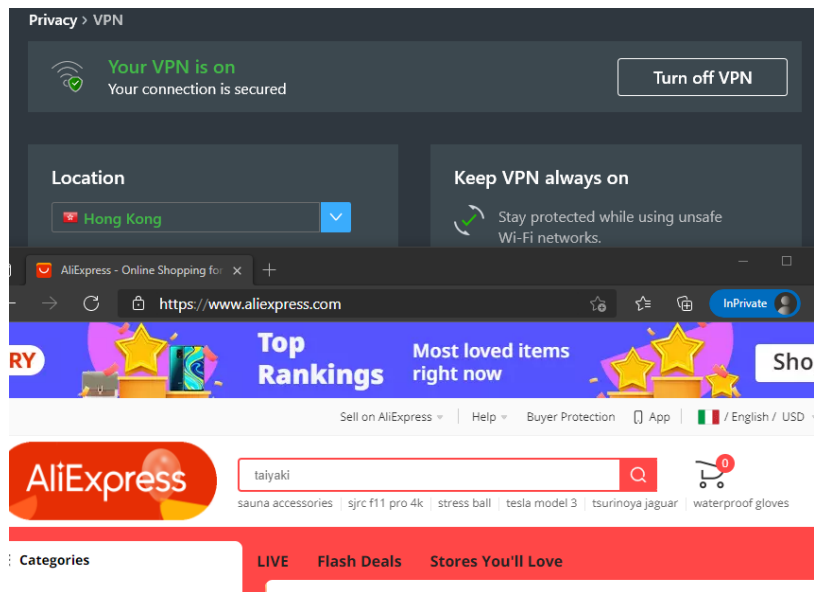

-Russia: currency, location and language all set to Russian:

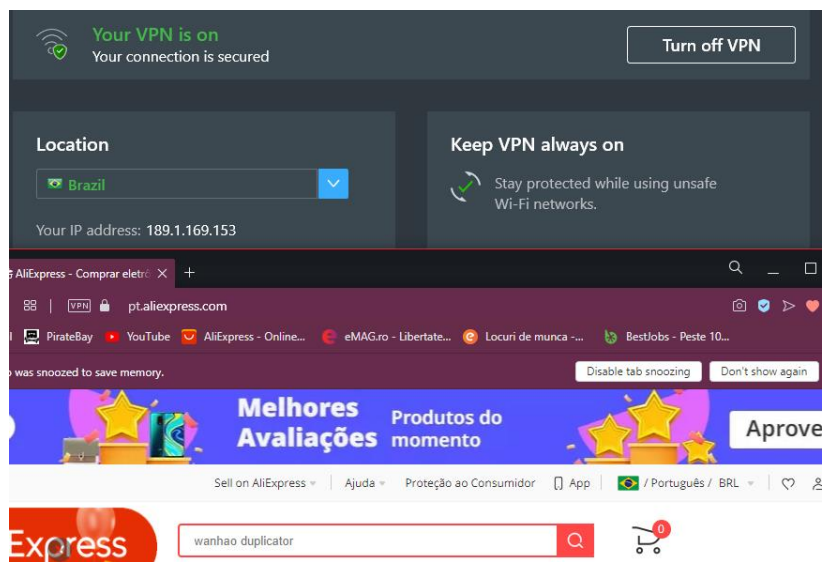

-USA: currency set to dollar, location to USA , and language to English (US):

-Hong Kong: site not translated, and localization is set to Italy, English language, USD.

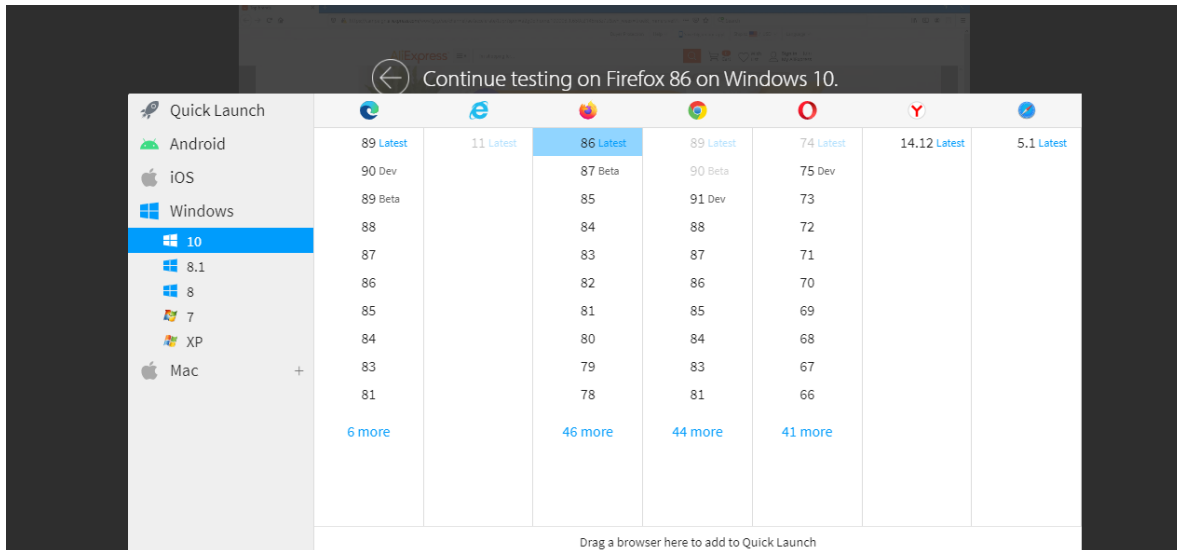

-Brazil: site translated correctly, and localization and currency also correct.

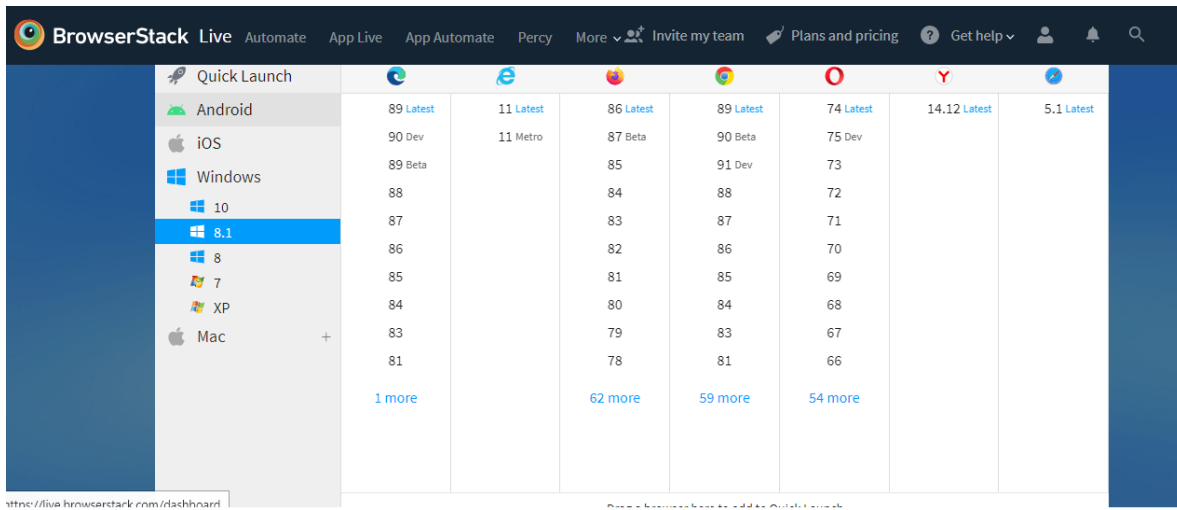

2.) Compatibility testing

Made with BrowserStack. Application AliExpress was run on multiple browsers: Safari, Opera, Chrome, Mozilla Firefox, Edge, Yandex(multiple versions) , different operating systems (IOS, MAC, Windows) :

For example. Windows 8.1:

-Windows XP:

The screenshot shows the BrowserStack Live dashboard with the 'Quick Launch' sidebar on the left. The 'Windows' section is expanded, and 'XP' is selected. The main table displays the following data:

OS	Browser	Version	Status
Windows XP	Internet Explorer	8	Latest
	Internet Explorer	52	Latest
	Internet Explorer	49	Latest
	Internet Explorer	36	Latest
	Internet Explorer	14.12	Latest
	Internet Explorer	5.1	Latest
	Internet Explorer	4	

At the bottom of the table, there are links to '40 more', '25 more', and '20 more' configurations.

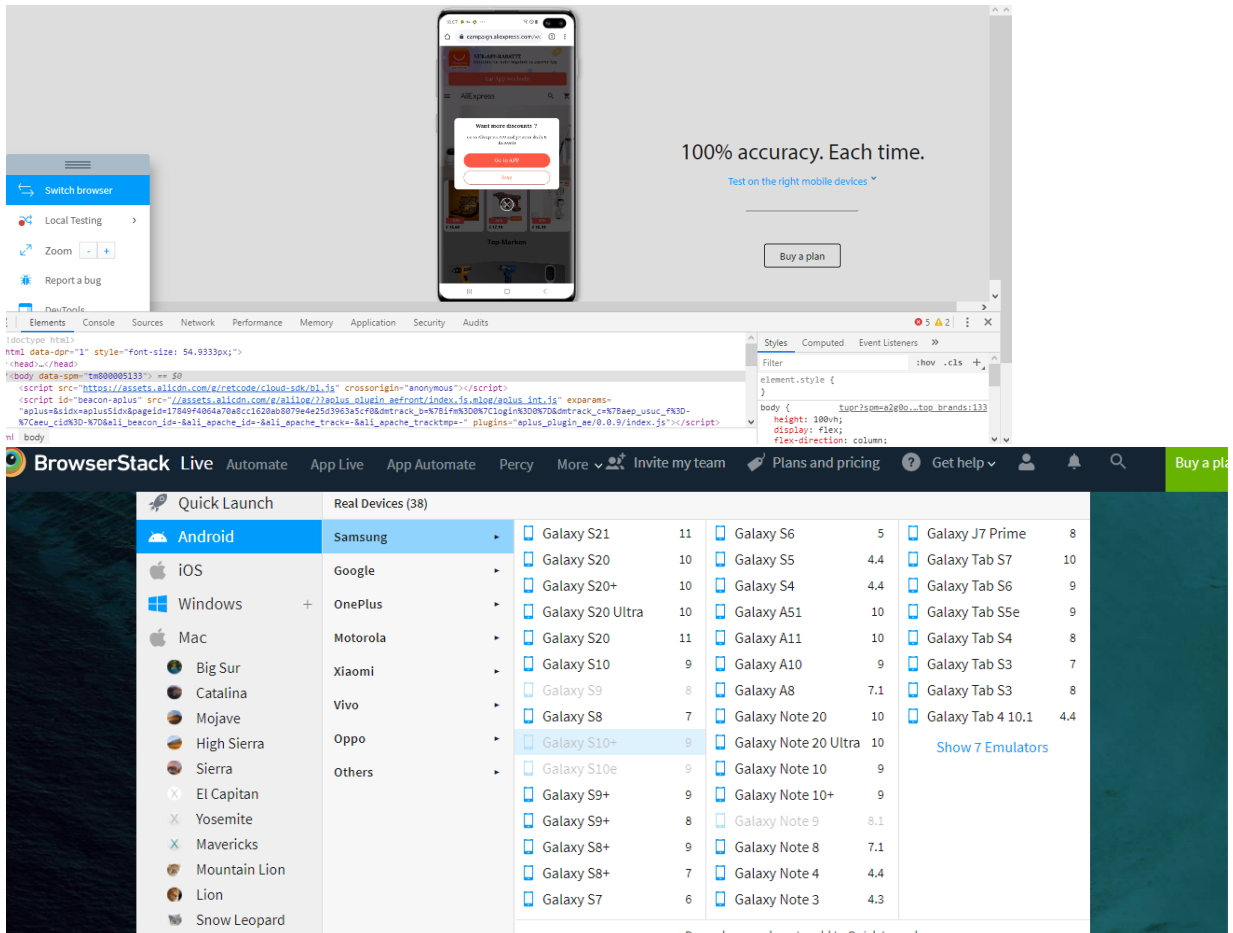

-Windows10 :

The screenshot shows the BrowserStack Live dashboard with the 'Quick Launch' sidebar on the left. The 'Windows' section is expanded, and '10' is selected. The main table displays the following data:

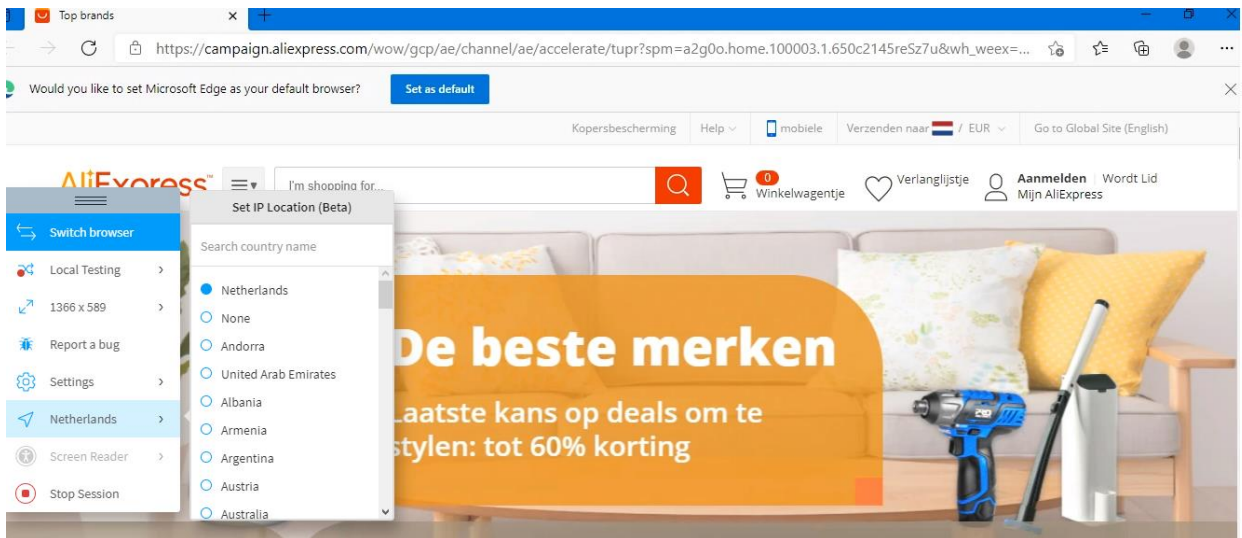

OS	Browser	Version	Status
Windows 10	Internet Explorer	89	Latest
	Internet Explorer	11	Latest
	Internet Explorer	86	Latest
	Internet Explorer	89	Latest
	Internet Explorer	74	Latest
	Internet Explorer	14.12	Latest
	Internet Explorer	5.1	Latest
	Internet Explorer	75	Dev
	Internet Explorer	73	
	Internet Explorer	72	

At the bottom of the table, there are links to '6 more', '46 more', '44 more', and '41 more' configurations.

-Also, runed on different devices (Samsung, iPhone):

With BrowserStack were made a second part of localization:

and resolution testing:
